## BOOK SYNOPSIS

The ultimate compendium of the international and New York Times bestselling series, this fun omnibus features the complete content from all four books—F in Exams, F for Effort, F this Test, and F in Exams: Pop Quiz—plus more than 100 brand-new, sadly real, hilariously wrong student answers (Q: What is the role of a catalyst in a chemical reaction? A: It lists the cats involved). Also including bonus trivia in the form of "Stuff They Should Have Taught Us in School" facts (did you know a sneeze can travel up to 100 MPH?), this A+ collection will amuse anyone facing down a test as well as those happy to have the classroom behind them.
