BOOK SYNOPSIS

US Real Estate Equity Builders (USREEB) objective is to provide superb turn-key investment properties for our clients. Our experience and knowledge in local markets allows us to focus on and use our 100+ years of combined experience in the Kansas and Missouri real estate investment markets to provide stable growth in our investment portfolio. Developing positive relationships with investors is essential in creating a satisfying investment experience. Maintaining frequent and clear communications provides investors an understanding that every investment is significant to both the investor and to USREEB. We treat investors with the utmost respect and carry forward that respect in the maintenance of our portfolio of properties. By providing fully rented and completely renovated turn-key real estate investment properties, our investors are able to achieve their real estate investment goals at a very high level. USREEB eliminates the middle-man of investing and continues to remain competitive with our data. From the finely tuned rehabs to the closing processes to the placing of our tenants, USREEB remains attentive and detailed with everything that they do. Over 200 turn-key properties have been sold in 2016 so far and we are extremely humbled by our growth and opportunity that we continue to create in the Kansas City, MO market. For questions or inquiry, please reach out to info@usreeb.com
